

Cambridgeshire Adult Safeguarding Team

Adult Safeguarding Bespoke Training Opportunities

Cambridgeshire County Council Adult Safeguarding Training Team continues to meet the evolving training needs of health and social care practitioners by providing a dedicated programme of workshops, run by specialist trainers.

Many of our current courses can be adapted to suit the individual needs of services/teams.

The benefits:

- ❖ Pre-training meeting with an Adult Safeguarding Trainer to discuss and plan a programme specifically tailored to your requirements.
- ❖ Case Studies relevant to your service group
- ❖ Time and venue to suit you

Policies and Procedures

You will be asked to provide our trainer with your organisations policies and procedures for safeguarding. These will form part of the training, thus ensuring that all staff are fully conversant with their own organisations reporting and recording pathways, therefore, we require this information BEFORE we train. This will be discussed at the meeting with the trainer.

Charges

£150 per day

Please contact our Training Administrators for further information
