Stepping-stones ...into learning

acer PUTTING LEARNING FIRST

Developing English skills can improve the service you provide!

Do your staff have a need?

If so, the Stepping-stones project can offer them support to:

- write more accurately and clearly
- understand what service users need
- work out household budgets and measurements
- communicate effectively at work
- complete their training in the UK?

The Stepping-stones project offers this support through:

- courses that can be tailored to meet your particular needs

and

- flexible delivery that can fit into workplace shift patterns or alternatively can be offered off-site.

To find out how the Stepping-stones project can benefit your organisation, contact Your Contact on 01xxx xxxxxx or e-mail xxxxx@xxxxxx.
